

Base on the version of yesterday, I did some functional testing.

1. cash spending can modify the amount directly without choosing any card

Please note that you need to save					
HOUSING	FOOD	UTILITIES	CLOTHING	MEDICAL	DONATI
1500.0	2000	0.0	0.0	0.0	0.0

2. Cards' balance isn't connect to the cash spending.

3. Adding credit card: the amount of credit card should be limits minus spent

Location				
Card type	Account Number	Card Number	Amount	Select
DEBIT	8888	52548888	3200.0	<input type="checkbox"/>
CREDIT	6666	52543311	250.0	<input type="checkbox"/>
LOYALTYCARD	gen@hotmail.fr	11229900	2000	<input type="checkbox"/>
DEBIT	1234	87654321	1200.0	<input type="checkbox"/>
DEBIT	2587	14785296	1500.0	<input type="checkbox"/>

Please Enter the amount of you already spent

Please enter your credit limit

4. The change of budget percentage should no more than 100%

The screenshot shows a web-based budget calculator interface. At the top, there are four buttons: "Calculate Budget", "Change %", "My Budget", and "Clear Budget". Below the buttons, a text area displays the following information:

With 10000.0\$ in available funds, it is recommended that you spend:

Category	Amount (\$)	Percentage (%)
Housing	4400.0	44.0
Food	14200.0	142.0
Utilities	74100.0	741.0
Clothing	700.0	7.0
Medical	700.0	7.0
Donations	400.0	4.0
Savings and Insurance	400.0	4.0
Entertainment	400.0	4.0
Transportation	100.0	1.0
Miscellaneous	7700.0	77.0

Not finish yet:

Cash spending should save each record.

Post transaction part of my cards select
