

Diary

Theo Grimond 27276044

Date: Jan 18, 2018

Time: 20:15-20:30

Who was present: Whole team

Description: Having recently changed Lab Sections I finally met my new teammates. They explained to me the nature of the application and some of the features they wish to add. Since most of the roles were filled by the existing members I was put in charge of Quality Control for Iteration 1.

Date: Jan 19, 2018

Time: 11:00-11:30

Who was present: Theo

Description: I created the different accounts I need for all the tools we are using for the project (Discord for communication, Github for project sharing).

Date: Jan 24, 2018

Time: 45mn

Who was present: Whole team

Description: We discussed which were our Use Cases for every iteration, making it clear what we have to do.

Date: Jan 29, 2018

Time: 15:00-16:00

Who was present: Theo

Description: Downloaded the updated repo and looked at the code that was already implemented to familiarize with the application

Date: Feb 1, 2018
Time: 14:00-16:00
Who was present: Theo
Description: Started a JUnit tutorial to understand the Test that are implemented in our app. This will be useful to me when I am coder in Iteration 3

Date: Feb 1, 2018
Time: 16:00-17:00
Who was present: Theo
Description: Created an updated version of our Domain Model with one-to-one relations. Showed it to the TA later that day and she said it was good, the documenters will change it to a pdf file.

Date: Feb 7, 2018
Time: 20:00-20:45
Who was present: Theo Dong-Son
Description: Dong-Son showed me the basics of ShareLatex as we worked on the Requirements File, this will help me translate my diary to Latex.

Date: Feb 11, 2018
Time: 14:00-18:45
Who was present: Theo
Description: I reread all the code that was written to make sure it is clean and clear. Added a few comments and deleted useless lines. Added commented lines around code that will be rewritten or TODO for Iteration 2. Made sure that it ran (and Sabrina tried it again on her computer to be extra sure). Finished rewritting Diary in Latex to be ready to submit.
